

PROTECT OUR EDUCATION AND OUR PROPERTY VALUES!

Fairfax County Public Schools is proposing assigning Timber Lane students north of Rt. 29:

➔ From Longfellow MS / McLean High School (Nationally Ranked #218)

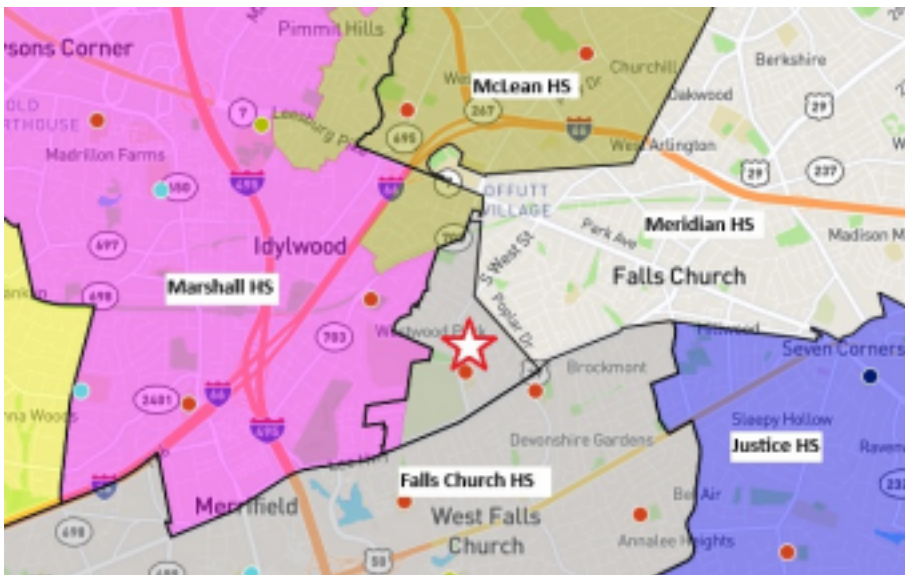

➔ To Luther Jackson MS / Falls Church High School (Ranked #5,630)

This change could cut property values by 20% or more and remove students from nationally top-performing schools.

The Proposal Is Not Consistent With FCPS Policy:

- **Access to Programming:** Students would lose access to McLean's nationally ranked academics, clubs, and sports - programs built on decades of community investment.
- **Enrollment/Capacity:** Falls Church High School would be pushed over capacity by 200+ students, straining facilities and learning conditions.
- **Proximity:** This creates an attendance island rather than eliminating one. Walkers, bikers, and new drivers must cross two dangerous highways (29 & 50) to get to school. This also separates students from lifelong friends, neighbors and teammates.
- **Transportation:** Elementary AAP students would travel six miles (Mantua) instead of two (Haycock), a huge burden on bus routes, students, and families.

Map of proposed changes to high school assignment:

Red Star = Our Neighborhood - currently assigned to McLean High School

The proposal creates a new attendance island bordered by 29, Marshall HS, and Falls Church City. Keeping the status-quo or combining Poplar Heights with Falls Hill (currently Marshall but proposed to McLean) does not result in an island.
